

## Description

The EcoControl HP tyre is a high performance summer tyre that combines excellent braking power with reduced fuel consumption. Find your nearest EcoControl HP dealer here.

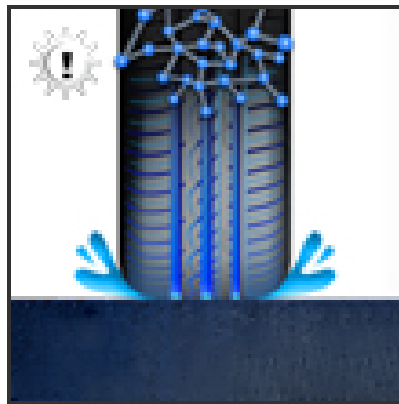

## Benefits

### Shorter dry braking

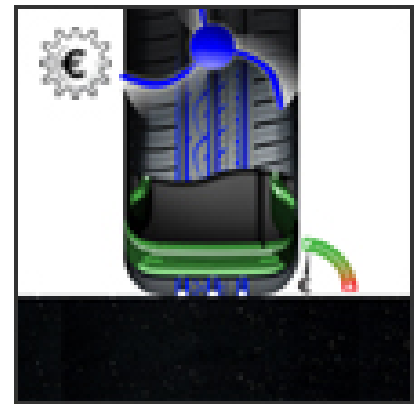

Enjoy confident control when it matters most. The EcoControl HP increases road contact under braking force, for dry braking that's 3 meters shorter than competitors' tyres\*.

### Shorter wet braking

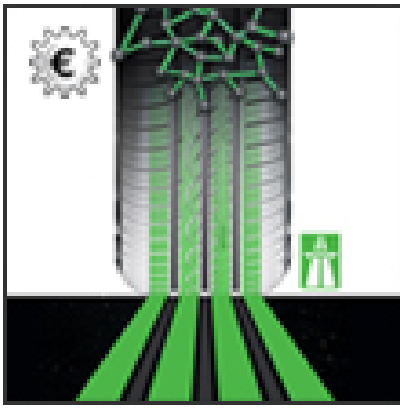

Braking distances in the wet are up to 2.9 metres shorter\*, thanks to a full silica compound and biting edges that cut through the water layer beneath the contact patch. AquaFlow grooves quickly disperse water in heavy rain conditions.

### Lower fuel consumption

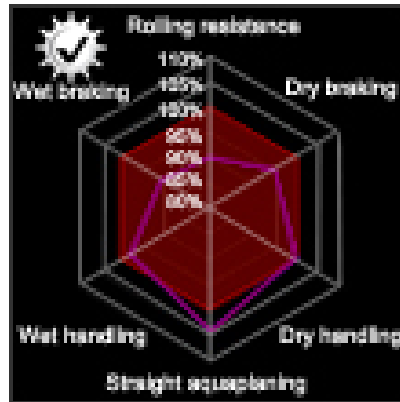

Lower your fuel costs and CO<sub>2</sub> emissions. With its high performance construction and EcoTread design, the EcoControl HP needs less energy to roll. In independent tests, the EcoControl HP delivered 9% lower rolling resistance than competitors' tyres.\*

## High mileage

Benefit from long lasting performance. Hardwearing compounds and a harmonised poly-rib distribution ensure slow and even wear, giving you more mileage for your money.

## Drive with peace of mind

The EcoControl HP is the ideal all-rounder for high performance vehicles. It delivers better overall results in wet handling, braking and fuel efficiency when compared to the average performance of competitor tyres tested.\*

## Product details

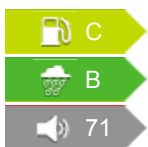

### 205/60R16 92V, code: 526825

**Marking**  
Asymmetric  
TL Tubeless type

**Season** Summer    **EAN** 5452000391704    **Load index** 92    **Speed index** V <= 240 KM/H    **Rim** 16
