

Description

The Fulda Kristall Control HP2. The new high performance tyre for tough winter conditions.

Benefits

Snow Catcher Technology

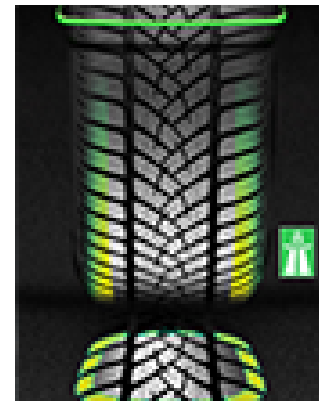

Excellent Control on Snow. The centre grooves of the tyre work together to form an interlocking network that catches the snow as you drive, keeping you moving even in severe snow conditions.

3D Bubble Blades

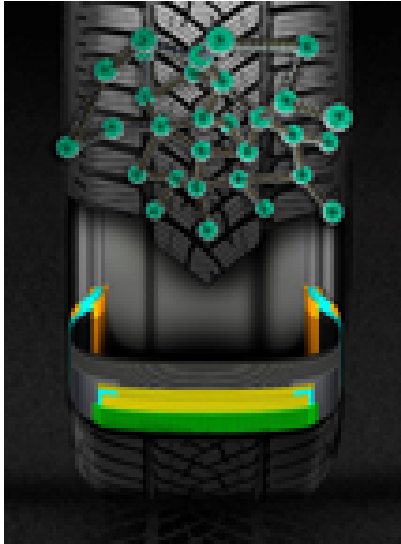

Strong Dry Performance on Winter Roads. Straight sipes on the top of the tread surface allow the presence of more rubber volume. This combined with the 3D bubble blades feature provides stronger blocks for better control on dry roads.

Flat and Wide (Schwartz, Breit, Stark) cavity

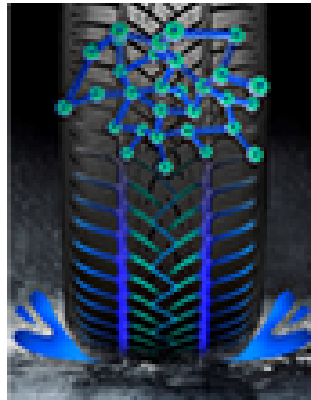

High Mileage. Allows an optimized footprint shape with uniform pressure distribution which results in an even wear.

Engineered Compound Technology
and low weight construction

Reduced fuel consumption.

Winter Polymer Blend & Multiple
AquaFlow grooves

Excellent control on wet winter roads.
Water is absorbed and dispersed in an
efficient way.
